

HANZA Mechanics Tartu is one of the leading companies for machined parts in Estonia. We can be your industrialization partner together with our proximity units in Sweden to full scale manufacturing, we also support you with assembly and suitable logistic solutions as VMI and others. Regardless of the size and nature of our mission the goal is long-term cooperation HANZA Mechanics Tartu is the CMS unit where our clients have access to multi-process contract manufacturing services. In Estonia you handle everything from procurement, manufacturing and assembly with the delivery of complete units directly to our end customers. The factory is situated in an area with extensive experience in mechanic production, where we have a high technical level and very low turnover of staff. We are a TS 16949 / ISO 14001 / ISO 9001 certified factory.
